

Disposable blood segment device

Product Name: LY New Arrival Innovation Lab Device Segment Device

LY segment device is a single-use segment sampling device makes it easy for lab technicians to complete pre-transfusion type and cross procedures while minimizing the risk of spills and breakage.

Working method:

1	Placing the device directly on top of the test tube.
2	Inserting the blood segment into LY segment device.
3	Pressing until the needle punctures the blood segment.
4	Letting blood flow from the segment into the specimen tube.
5	Discarding the blood segment and LY segment device into medical waste container.

Attention:

1	Wear gloves when using LY segmen device.
2	Do not squeeze until the needle has pierced the segment.
3	Single-use only.
4	For in-vitro diagnostic purpose.

Advantages:

1	Access blood from a segment safely.
2	Avoid risk of sharp injuries or splatter.
3	Reduce potential of blood sample cross contamination.
