Sunscreen

Under the hot sun, the emergency blanket draped over his body to protect the body to avoid direct sunlight.

When parking the car in the hot sun, you can cover the silver side of this blanket on all the front windshield, which can reduce the car internal heat absorbent.

Warm

When cold weather experienced in the field, the emergency blanket wrapped the body can absorb and reduce body heat loss temperature.

When the car cast an anchor in the midnight or in the cold weather, this kind of blanket can help driver to prevent the cold and keep warm.

During the raining day, can use the blanket as the raincoat or awning

Reflective

The wild were killed, the emergency blanket around him, can use its reflective role in helping rescue workers to find the target.

This [first-aid blanket](#) can be used as the reflectance film that send the signal to the rescuers.

Stretcher

Emergency blanket good toughness, light, soft, malleable and can be used as a stretcher. 200-pound man lying down on the unfolding emergency blanket, six people simultaneously picked up the corners and edges of the intermediate blanket emergency blanket, unbreakable!

ADVANTAGE

Good thermal insulation

Emergency blanket can be used to cover the body, preventing body temperature from sharp declining after accidents.

Rescue signal

Emergency blanket can be used as reflective film send a signal to rescuers.
