

## 1>Features:

This printer are the light [handheld inkjet printer](#), weighing only 1.18kg.

And all-in-one box, including 2 high capacity rechargeable batteries, battery charger, SD card reader. It can continuous print more than 10 hours. The Battery standby time can reach as long as 20 hours. 50ML Ink Cartridge can print 80,000,000 character

## 2>Technical Data

Shape features	stainless steel casing/black aluminum shell and color touch screen
Dimension	135*128*200mm
Net weight	1.18kg
Printing direction	adjusted within 360 degree, meet all kinds of produce needs
Print fonts	Built-in full word stock, pinyin input method, touch online editing, no need to connect the computer and easy to operate
Character type	high-definition printing character, dot matrix font, built-in Chinese and English
Printing graphics	all kinds of logo, graphics can upload through USB disk
Printing accuracy	200-300PI
Print line	1-8 lines (adjustable)
Print height	1.2mm-12.7mm (the best distance between the nozzle and printed object is 2-5mm)
Pipeline serial number	1-9
Automatic print	date, time, batch number shift and serial number, etc
Storage	the system can store more than 1000 mass (external usb make the saved information transfer in a free way)
Message length	2000 characters for each message, no limitation on length
Print speed	80m/min
Ink type	Quick-dry environmental ink, water-based ink and oily ink
Ink color	black, red, blue, yellow, green
Ink Volume	42ml (can print 8,000,000 characters)
External interface	USB, DB9, DB15, Photoelectric interface, can directly inserted into the U disk to upload information
Voltage	DC12.6 lithium battery, print continuously more than 10 hours and 20 hours standby
Control panel	touch-screen (Can connect by wireless mouse, also can through the computer editing to import)
Voltage	12.6-16.8 V
Power consumption	the average power consumption is lower than 5W
Working environment	0 °C - 38 °C; Humidity: 10% - 80%
printing material	wood plate, cartons, stone material, the fiber board, light steel keel, tubing, metal, plastic, aluminum foil, etc.

## 3>Application

Wood, carton box, stone, fiberboard, light gage steel joist, pipe, metal, plastic, aluminium foil

Printing area code, date, batch number and other content products are mainly used in packaging. Widely used in food, beverage, pharmaceutical, chemical, cement and other industries. Can print on porous surfaces (such as ordinary cardboard boxes, templates,

Changeable Barcode: download the data base with USB disk, then print the changeable barcode

Wireless transmission: can transport message of the code reader and message of weighting to the hand-held printer within the diameter of dozens of meters without wires.

## 4>Advantages:

1, Lightweight: Light portable [printer](#), weighing only 1.18kg.

2, Touch Screen: 4.3 inch touch screen.

3, What you see is what you get.

4, It can print frontwards, upwards, downwards in 360 degree.

5, The battery standby time can reach as long as 20 hours.

6, This printer can be operated independently without connection of computer.

7, The printer has a unique subsection function. Namely, one message can be printed by multiple rows, which solves the problem of the maximum printing height of reaching 18mm for every row.

8, It can print 1-8 lines characters. It can print both big and small characters,

9, There is USB interface and can be connected with computer to transfer symbols and logos.

10, Long Lasting Battery: 10 hours of continuous printing with more than 200,000 characters.

11, Ink Cartridge: 50ML (can print 80,000,000 character)

**5> Packaging & Shipping**

Selling Units:	Single item
Frieght Charge	Not include in the price.
Single gross weight:	3.0 KG

Frieght Charge not included in the price.
