

Manufacturer Hospital Disposable Absorbent Underpad

Description :

- 1) High quality non-woven fabrics as top layer is clean and dry. Cotton fabric feeling and soft
- 2) The absorbing layer is composed of fluff pulp coated by tissue paper and high polymer absorbing resin. High polymer absorbing resin can absorb liquid 100-150 times larger than its sap weight
- 3) The bottom film is high quality flow casting film, never leaking water. It effectively prevents clothing dirty due to liquid spilling and penetrating, and keeps the place around dry
- 4) Capable of absorbing urine and other liquid for many times, so as to keep pad surface dry and comfortable
