

**Functions:**

1. [Wrinkle removal](#)
2. Skin rejuvenation
3. Acne treatment
4. Pigment removal
5. Blood vessel removal
6. Hair removal
7. Skin firming and reform, black doll skin rejuvenation
8. Slimming

**Product descriptions:**

Type	Multi-Function <a href="#">Beauty Equipment</a>
Technology	Elingt + RF
Two E-Light Handle tool	530nm-950nm & 640nm-950nm
Spot area	10*50mm
Interval of light	2~5s
E-Light input power	1200w
RF power	120W
Capacitance	60000UF
Energy density	1~50mj/cm2
Total pulse width	150ms
Pulse interval	20ms
Screen	10.4 or 8.0 inch color intelligent touch screen
OSD Language	Chinese, English
Material	ABS + Aluminium Alloy

**Advantages:**

1. E light use the most advanced technology: OPT + RF + Epidermal Cooling.
2. UK Firstlight Lamp with at least 300,000 times and Artificial Sapphire filter crystal.
3. Equipped with an extra 450V voltage precombustion module, prolong life of the instrument, and increase its stability.
4. Along with the different treatments, the instrument is equipped with several common parameters, and one can adjust the main energy to operate it without setting any complicated parameters.

**Packaging&delivery:**

Packaging	1. Styrofoam 2. Fumigation wooden case 3. Air box
Delivery	Based on your order quantity
