Features

1. Featuring NAR's Red Tip Technology™ with a red elliptical tip to assist user in locating and threading during application
2. Reinforced windlass clip and highly visible security tab includes a writeable area to record the time of application
3. Its effectiveness as a life-saving instrument for our soldiers on the battlefield has played a significant role in improvement of modern warfare combat injury medical care.
4. The Tourniquet has revolutionized battlefield care for the user, given its ISR (Institute of Surgical Research) confirmed effective function and its lightweight

Advantages

1. With anodized surface, the CNC machining aluminum handle has good maintenance of

strength in extreme conditions. Black.

2. The two triangular rings is the dual locking system which keeps the fixation when movement is required.

3. The metal screw clamp, with tooth type clip and metal screw (anti-rust and with lubricant coating), provides more precise strength and fixation to avoid relaxing the tourniquet during movement.

4. Without self-adhering band design, Tactical Tourniquet can be used in dirty, muddy, sandy, also in the rain day and snow day.

Scenes To Be Used

Easy to Use: Rapid hemostatic tourniquet and easy to apply with one hand tourniquet on your on limbs

Life Saving: Awesome for first aid when hunting during camping and hiking, 100% effective in blocking blood flow in both upper and lower limbs

Variable Usage: tourniquets are suitable for all situations

Easy to Carry: The compact size is easy to carry, it could be put in your backpack or pocket

Good Quality: Made of nylon and magic stick; Easy to clean and can be reused

Use

1. Tactical Tourniquet is constructed of a solid piece of aircraft aluminum handle, two high impact plastic, acetyl triangular rings and a safety set screw.

2. With about 1m webbing band, it can be adjusted to fit any part of body or any age of persons.

3. It is chosen by many of the most elite and experienced warriors because of its outstanding ability to control severe bleeding and high level of reliability and ease of application.

4. 2 or 3 pieces can be applied together as a bone fracture fixing band.
